

Hosting

That Web Place is one of the cheapest website hosting providers in Australia, but don't be fooled into believing that we operate a "cheap" service. Our Servers are currently achieving 99.9% uptime and that figure is improving every day.

We offer a unique hosting package that we call our "A La Carte Plan". We developed this plan after analysing 7 years of customer history and realising that hosting providers were charging for things that most of their customers would never use. We were doing the same thing and quickly realised that what businesses really wanted was a simple solution that they could modify and expand as they needed and only pay for what they used.

Our A La Carte plan allows smaller businesses to enjoy the same features as large businesses at a fraction of the price. Large or growing businesses can easily add options to their A La Carte plan as they need them and still have a less expensive solution than those of our competitors.

There are NO SETUP FEES on your new A La Carte plan and the with a low monthly cost of only \$8.80, your business is on a winner right from the start.

Your A la Carte Hosting Plan Includes:

- » Hosting Control Panel
- » Hosting for one Domain Name
- » 50MB Summary Disk Space
- » 1 GB Summary traffic Per Month
- » Up To 5 e-Mail Boxes
- » Unlimited e-Mail aliases
- » 20MB Quota Per Mailbox
- » Hosting for one MySQL Database

You Can Customise Your Plan From The Following Additional Options:
